

Summary of Statistics for July 2008

In July 2008 the National Traffic Information System (eNaTIS) processed a total of 13,954,917 transactions – the most for a single month thus far this year and an increase of 17.99% compared to the total number of transactions processed in June 2008. The system dealt effortlessly with this increase in demand and uptime was 100% during business hours.

Significant increases were experienced in all the main transaction categories: learner’s licence authorisations rose by 29.92%, interface transactions* by 20.21%, vehicle registrations by 18.75%, reports executed** by 17.16%, user transactions*** by 17.09%, driving licence card orders by 16.75%, vehicle licensing transactions by 12.17% and vehicle record introductions by 9.22%.

The full breakdown of the transactions performed per main category during July 2008 is as follows: 914,080 vehicle licensing transactions, 290,697 vehicle registrations, 211,553 driving licence card orders, 86,168 learner’s licence authorisations and 70,292 vehicle record introductions. In addition, 122,904 reports were executed on the system.

4,121,089 transactions were performed on other computer systems that have interfaces to the eNaTIS, while users of the eNaTIS application at registering authorities, testing stations and provincial authorities performed 9,833,828 transactions.

The Johannesburg service centre once again performed the most transactions (483,953) followed by the City of Cape Town (407,637), Pretoria (338,136), Durban (212,009) and Port Elizabeth (108,347).

With 33,838 transactions Mercedes-Benz of SA was the most active non-governmental entity using a system-to-system interface with the eNaTIS, followed by BMW SA (28,268), Volkswagen of SA (25,744), TransUnion HPI (19,284) and Toyota SA (18,783).
